

# KERALA CONNECTIONS

TAILOR – MADE HOLIDAYS TO KERALA SOUTH INDIA

## TARIFF 2009/2010 SEASON

**This tariff is for the season starting 1 October 2009 through to 30 September 2010**

- The prices below are **per person** based on two people travelling together and sharing a double/twin room.
- Please note that our **prices do not include the costs of international flights** to and from the destination. Airfares are on request and we will try to find you the best fares available for your dates.
- Prices for single occupancy, more than two people travelling together, adaptations to the suggested tours and tailor-made tours on request.
- The prices given are for the **high season**. During the peak season prices will be higher; during the summer they will be lower. Each hotel or hotel group has slightly different seasons, which is why we have not given any dates with our prices. The peak season is from mid December to mid January but some hotels maintain these prices until the end of February. Most hotels reduce their prices during the monsoon (May to July). We will calculate the exact cost of your holiday based on your actual dates.
- If you are on holiday over Christmas and/or New Year you must be prepared to join in (and pay for locally) any entertainment that may be arranged by the hotel.
- Our prices include transfers in an air-conditioned car. If you are on a tight budget and happy to travel without air-conditioning in the vehicle please advise us and we can deduct the cost of this from your holiday.
- The busiest seasons in Kerala are Christmas/New Year and February. The busiest periods for the airlines are Christmas/New Year, Easter and July/August – if you wish to take your holiday during these times it is necessary to book very early.
